EXPERIENCE

Product Designer @ Gloify

Nov 2025 – Present

Remote

- Leading end-to-end design and development of a comprehensive design system for Mashreq Bank, ensuring consistency, scalability, and accessibility across the product suite.
- Worked across diverse sets of projects, contributing to multiple product verticals simultaneously while maintaining design quality and coherence.
- Collaborated directly with stakeholders and clients to gather requirements, present design decisions, and iterate based on feedback throughout the product lifecycle.

Founding Product Designer @ Kalppo

Jan 2025 – Oct 2025

Remote

- Spearheaded the end-to-end design of the entire platform, addressing the complex challenges faced by students pursuing international education.
- Designed an intuitive interface for complex information presentation.
- Implemented personalised mentorship matching and progress-tracking features.

Product Designer @ Techolution

Jan 2024 – Dec 2024

Remote

- Collaborated with cross-functional teams to implement an emotion-detection feature, enhancing the application's ability to analyse and respond to user sentiment.
- Worked closely with the engineering team to ensure seamless integration of design solutions while maintaining consistency across the platform.
- Led the UX research and design for an AI-powered application.

Product Designer (Freelance) @ Vichaar

Mar 2024 – Jul 2024

Bengaluru, India

- Designed a web-based information platform for Web3 users covering articles, news, and community finder features.
- Collaborated with the Product Manager to develop the MVP through an iterative design process.
- Created intuitive UX in Figma, contributing to 200+ early users and positive feedback.

Founding Product Designer (Freelance) @ Kharch

Feb 2024 – Jul 2024

Bengaluru, India

- Designed a mobile app for personal finance and expense management.
- Conducted user research to identify financial management needs of Indian adults.
- Created a minimalist, user-friendly interface aligned with the founder's vision.
- Contributed to pre-seed funding success and a 5,000-user waitlist.
